Swimming and relaxing at Ngonje Falls, a boatscruise is planned, provided the boat is in tact and fuel available. Fisherman can try for the fighting tigerfish.
- Day 4 Kafue N.P.**
We proceed along the Zambezi to Mongu, where we cross the river. After some hours we reach the Kafue NP, where we turn left from the main road into northern part of the park. We camp right at the Kafue river. The park varies from gallery forest along the river bank to dense bush and vast marshes, home for thousands of Lechwes. The large predators are preying on these and are abundant. Here we have the possibility for night game drives in open vehicles, a wonderful opportunity to maybe see some leopard stalking their nightly pray. Also lions are on the hunt, followed by hyenas. The river is home to thousands of hippos and crocodiles and large herds of elephants and buffaloes can be seen.
- Day 5 Gamedrives in the Kafue NP**
- Day 6 Kafue South N.P.**
We drive through the southern part of the Kafue NP and cross the damwall of the Kafue dam, a hydroelectric powerstation. Camp in the Kafue South NP.
